## REEL SERVICES FROM DREAM OUT LOUD MEDIA

### EDITING EXISTING MATERIAL:

Dream Out Loud Media can **edit your on-camera or voiceover reels from existing projects for \$50/hour editing time.**

The average on-camera reel is completed in 1 to 3 editing hours, including graphics, color correction, and additional music/sound if necessary. This rate includes one round of client notes. Additional notes will be charged at \$50/hour.

Most voiceover demos can be completed in 1-2 editing hours. This rate includes one round of client notes. Additional notes will be charged at \$50/hour.

### CREATION:

For younger clients, Dream Out Loud **can create on camera studio reels for \$60/hour, including coaching and editing.** Reels usually include a short scene, monologue and commercial, plus several slates. Clients are responsible for providing their own material, though we are happy to advise. This rate includes one round of client notes. Additional notes will be charged at \$50/hour.

We also have a state of the art voiceover booth and **can create voiceover reels for a flat rate of \$500, including recording, editing, music, and sound effects.** Clients are responsible for providing their own material, though we are, again, happy to advise. This rate includes one round of client notes. Additional notes will be charged at \$50/hour.

We also offer reels shot to look like short films. These projects are priced based on the demands of the material ~ including location, number of shoot days, production specifications, etc... Clients are responsible for finding their own materials.
